Turf Talk with Tim

News from the Maintenance Barn

I want to start and say thank you from the entire golf course staff for coming out this year. The course had one of its best years since the economic collapse and is showing signs of a good growth for the game of golf in years to come.

This year has brought a lot of changes to the course and it's just the start of things to come. We added more native areas to the course, which has changed the look and ways that golfers play particular holes. I'm looking forward to next year to continue to change the look of the course, with adding additional native areas and repairing bunkers and tee boxes that need some extra TLC. Overall I am very happy with the direction that my staff and I are taking to take this course to the next level, while still making it a fun but challenging course for golfers of all skill sets.

As you may have noticed over the course of the summer and fall, we were building a new building that will house our golf cart fleet. The building is now complete, as of Nov. 8, but we will be working on finishing the landscaping around it in the spring of 2018. I would ask you to please stay out of the maintenance area not only for the safety of you but also the safety of the maintenance staff and equipment.

Looking forward to seeing everyone back here in the spring and hearing your "Wildflower feedback"! Enjoy the winter; I hope you can stay warm and get a few rounds in elsewhere!

Happenings in the Pro Shop

Howdy, everyone!

It's hard to believe we've already been closed for over a month! That just means we're a month closer to golfing at Wildflower again! ☺ Since we closed the course and got the pro-shop buttoned up for the winter, we immediately started planning for 2018, our *25th anniversary!*

In September, Tim and I had a chance to attend "The Show" in Fargo to look at all of the new merchandise being released for spring/summer of 2018. We even had the opportunity to explore some new lines (hint, hint!), as well as chat with some vendors that had merchandise in the shop years ago. We're going to make some changes to freshen up the pro-shop, and ultimately, give you guys the best quality, value, and selection.

Tim has also helped me with tournament planning. We're hosting two Minnesota Jr. PGA events, as well as an MGA Players Championship Qualifier! According to your feedback, we're going to try to improve our Club Champion event by moving the date to a Tuesday (for all of you Men's Leaguers ☺), as well as moving our Seniors and Women's Champion event to a Monday to accommodate Seniors and Ladies Day! We also received GREAT feedback from the Lad & Lassie event we hosted this past season, so we're planning to have a Lad & Lassie Event the last Friday of each month, May – August. For those of you who didn't participate in the Lad & Lassie last season, it's a super fun, casual men + women's 9 hole, 2 person scramble on Friday evenings. Same price as our Couple's Night, so you're getting the two complimentary cocktails, but the Lad & Lassie incorporates a little bit of competition and socializing. Bring a spouse, friend, child, neighbor, stranger, etc.! ☺ For a full list of 2018 tournaments and events, check out the website (www.wildflowergolfcourse.com) under the **Tournaments & Events** tab.

And lastly, THANK YOU! Thanks to all of you who golfed at Wildflower this summer. A special thanks to those members who chose Wildflower as "their home course". Thanks to those who participated in Men's League, as well as our tournaments. Thanks to those who enrolled their kiddos in Kids Camps. Thanks to the ladies who sharpened their skills at a Ladies Clinic and those who participated in the Wine & Nine. It was a great season, and it would not have been possible without YOU! Thanks again—we appreciate it!

I hope you all have a happy holiday season! Take care!
